

# Private Lesson Assignment For: Sarah Reed

---

**Lesson Date:** Wednesday, January 19, 2005

---

**Lesson Notes:** Worked on region competition music (rhythms).  
Worked on lip slurs and band requirements exercises

---

**Assignment:** Practice "syncopation". No need for music, just pat your foot and play on the upbeats. Work on this real hard this week and you won't have anymore problems with it.

Practice the lip slurs. Just work on two measures at a time. Try to play the exercise faster and faster. You want to be able to play much faster than will ever be required! Lip slurs are great for developing control and range.

Circle any problem parts in your band music, or region music and let's discuss them next week. If you are feeling confident of the band music by then, we may go back into the Rubank book.

---

**Other:** You currently owe: \$10.00. To prepay for the rest of September please bring a check for \$40.00 next time.

Thanks.
